Newport vs. the Atlantic Press.

Since the kindly Scotsman of the "Herald" has devoted so much of his valuable time, and expensive space to the misrepresentation of this city, we have taken pains to overhaul the "Newport papers" to examine what houses are for sale and to let, and hope our exchanges who have copied the Herald's statements will do us the justice, to let the truth be known. At the present time there are twenty-two houses, advertised for sale in this city, of which fifteen are strictly within the city, are owned by various mechanics, or tradesmen, and sold for a variety of reasons; not one of them being a fine, or expensive house. There are seven "cottages" for sale, three of them new, and built for sale, the other four are as follows. The "Kay street House," a small summer hotel, is for sale or to let, Mr. Breeze's stone house, on Spring street, Dr. Davis's small cottage on Kay street, and Mr. Wolfe's on Tour Avenue to close an estate. This does not exceed the average number which have been for sale in this city for ten years past. Of houses to let there are forty seven, some of them in the city proper, and others in the suburbs; they were mostly constructed expressly for this purpose, and there are probably a large number for rent which are not advertised. Last year from March 1st to July 1st, there were upwards of seventy houses rented, and this year the number promises to be even larger. We confidently expect that on the 1st day of July, there will not be a respectable tenement for rent in, or about the city. There are two or three fine estates for sale, which are not advertised, to which reference is made in "Aquidneck" article.

The types, (those mischievous fellows) in "Tenor's" notice of the second concert of the "Musical Institute," made some mistakes, and omissions. For "it seems creditable" read "it seems incredible," for "the minute gun at sea was effectively sung" read, "effectively sung" while the duet "When thy bosom heaves the sigh" which was very sweetly sung, and by many considered the pleasantest feature of the concert, managed modestly to get out of sight, altogether. Mrs. Tourjee, whose voice is mezzo-soprano, sang centrally, to Miss Coppeland's flexible and brilliant soprano. The latter lady's singing has a decided style, and gives evidence of good natural power, and careful cultivation. We can add nothing by an imperfect description, to the pleasure of those who listened to that concert, nor can we convey any idea of their loss, to those who did not we only advise them never to omit attending another.

LECTURE THIS EVENING.—Mr. Gilman's lecture this evening is not the same as the one given by him two weeks ago. It is a continuation of "Characteristics of New England Humor." In it he gives a full analysis of Yankee wit, and illustrates the points with many new and striking anecdotes. Oliver Wendell Holmes, the best possible authority, says this second lecture of Mr. Gilman's is a most perfect discourse upon humor.

We advise all people inclined to melan- choly or dyspepsia to be at Aquidneck Hall this evening. The treatment you will there receive will be worth more than all the small pill or large ones invented since Asclepius.

Let every one who has a very solemn neighbor pass him a ticket. Those who have already formed the good habit of laughing, will find in the lecture enough to think about.

It may be interesting to know that Mr. Forney received some \$10,000 as his share of the Senate Printing contract, exclusive of an obligation of \$14,000 to the Union concern.

the fears of many who have been, or hereafter may be alarmed, at the showers of sulphur which are occasionally mentioned as having fallen in various parts of the country, to be informed, that they are perfectly harmless; being nothing more than the pollen or blossom of the pine tree which is thrown off in spring, at the south in March, and at the north, as late as May. It appears precisely like sulphur; and although some who have tasted it, are pretty sure that it is really sulphur, it has little or no taste at all. On every clear day in the piney region, at the proper season of the year, it may be distinctly seen against the clear blue sky. It is so light that it will continue to float in the air until it rains, and is often carried by the wind in reds of miles before a shower occurs, when it comes down with the rain, and may be seen floating upon the surface of water. This gives rise to the notion that a shower of sulphur has fallen.

Mr. Merriam will please take notice of this explanation, as it appears he has recently received a letter from Georgia, giving an account of an earthquake, a thunder storm, and a shower of sulphur, which lately occurred there at the same time. The shower of sulphur in Georgia, probably had the same relation to the earthquake and thunder storm mentioned, that a similar one which occurred in Mobile, the night before the day fixed by Miller for the end of the end of the world, some dozen years ago, had to that great event; and should any more occur between now and the new day fixed upon in Europe, for the end of the world, (the 13th of June,) probably no great harm will come of them, as in case the comet should strike the earth, this description of sulphur will not be likely to burn very readily.

We lately inserted a paragraph from the Providence Post stating that the project of a Rail road from Warren to Fall River had been revived.

Before making that road, would it not be well to consider the question, whether it would not be better to invest the money in forming a connection by Rail road, from Bristol ferry on the Rhode Island side, leading over the Stone Bridge to Fall River? The distance, 9 miles, would be about the same, and the travel over it when the road from Newport to Bristol ferry should be built, would probably be twice, if not three times as great, as over a road from Warren to Fall River direct; and it would serve the same purpose, the only difference being that it would take about 15 minutes longer from Warren to Fall River, than by a direct road between the two places. There would be one ferry to cross in either case, and the road either way, would cost about the same, while the travel would certainly be twice as great over the one as over the other.

In "Aquidneck's" communication of yesterday, for "and Roberson," read "Andrew Roberson," for "original New Yorker" read original "Newporter," for "1200 inhabitants" read 12,000, for "small houses worth \$1000 to \$500," read "\$1000 to \$5000," for "great numbers of mechanics" read "great numbers of mechanics" for "calculators" read "com- tractors" and for "he believed" read "we be- lieved." Our mistakes on the subject are as numerous as the Herald's but for different reasons, our proof-reader, and the Herald's conscience were away on other business.

MR. EDITOR:

An article in your paper of yesterday, signed "Aquidneck," does injustice, in one particular, to James Gordon Bennett, editor of the N. Y. Herald, which I wish to correct. The article says that "Bennett was disappointed in his attempt to extort his board out of the Newport hotels three or four years ago, and failing to black-mail us, has resorted to all the silly expedients which his fruitful brain could invent to injure Newport." This is a mistake. Mr. Bennett has not visited Newport since the summer of 1849, when he was here with his family, and occupied rooms at the Atlantic House. He did not attempt to extort his board, but paid the full price charged, like any other boarder, without murmur or complaint; and there is no reason to suppose that he was dissatisfied either with his accommodations or the price charged. These facts I am conversant with; and I have every reason to believe that Mr. Bennett's attacks upon Newport, as a watering place, are from other causes than the one above named.

ONE WHO KNOWS.

STABBING CASE IN THE KEENE JAIL.—Mr. Henry Leader, who is now in jail for an assault upon Mr. Goddard of Swan- zey, was visited on Wednesday by his wife, from whom he has been sometime separated. She came to perfect some pecuniary arrangements, and at the close of the inter- view, Leader, who does not seem to be sub- ject to confinement, but very reckless of consequences, drew a dagger and stabbed her several times. He was instantly secured by a brother prisoner, and placed in a strong cell.—*Manchester Mirror.*

On Monday night the dwelling of Mr. Nehol, near Delhi, N. Y. was burnt to the ground, and three of his children, two girls and a boy, perished in the flames.

Mr. Thomas Ward, of Franklin Grove, Illinois, has invented a machine for turning the leaves of sheet music, without making it necessary for the performer to stop for that purpose.

A LAND WARRANT FOR MR. PEABODY.—The Washington Union states that a land warrant for one hundred and sixty acres has been issued to George Peabody, Esq., the London Banker, for services as a private soldier in the war with England in 1812.

FROM NICARAGUA AND SOUTH AMERICA.—We have further details of the operations of Walker's troops on the San Juan river, but the accounts, as usual, are conflicting. It is said the party at Berrapiqui surrendered to Col. Lockbridge's command after one day's fighting, and that the filibusters captured large supplies of Minnie rifles, ammunition, artillery, provision and cooking utensils. They then proceeded up the river and took the station at the mouth of the San Carlos, after which the Huesco gave chase up the streams to the steamer Charles Morgan. Castillo Rapids was abandoned by the Costa Ricans, who set fire to the buildings and two steamers. The filibusters succeeded in saving one of the latter in a damaged state. A small party of Costa Ricans remained in the port at Castillo on the 18th ult., but were to be attacked the next day. A report had come down to Greytown just before the steamer left for Aspinwall, that Castillo was taken, and the communication with the lake was open, but nothing was said about the port at San Carlos. From Walker himself there is no further news, the last dates from his camp being those formerly reported of Feb. 3.

Col. Lockbridge had been stopped at Greytown during a visit he had made there, by the British commander, on the charge of detaining British subjects, but the matter was satisfactorily explained, and he rejoined his forces.

A letter in the Aspinwall Courier, from San Juan, Feb. 18, says: The first rumor was that Castillo, and one or two steamers were taken, but from the last information the present state of things seems to be that the Costa Ricans have burnt all the houses at Castillo, and also the river steamers which were below the rapids, and are in possession of the port.

From New Granada we learn that our Minister had been presented to the acting President. Congress met on the 1st ult.—The President's Message regarding the Panama massacre was moderate in tone, and a peaceful adjustment of the dispute was looked upon as probable, notwithstanding the opposition of the Secretary of Foreign Affairs.

NICARAGUAN NEWS.—THE COSTA RICAN VERSION.

The New York Times has the following intelligence from Nicaragua, quite different from that which was last received, and more dissonant with previous and well authenticated advices:

"Private letters received in this city yesterday, give the Costa Ricans version of late operations on the San Juan River.

The Costa Ricans aver that the accounts of the successes achieved by Col. Lockbridge are without foundation; that particularly at Hippos Point, the Costa Ricans retired in perfect order, losing no arms and actually suffering no defeat.

The Costa Rican authorities deny altogether the report that Castillo had been taken by Lockridge, or that the latter had captured four hundred rifles.

The Costa Ricans are confident that without reinforcements they are sufficiently strong to defend San Carlos, at the source of the San Juan, against any force that can be brought against it.

A SINGULAR CASE.—On Sunday last Drs. Freeman and Perry, of Saratoga, amputated the leg of a Mr. Smith, a resident of that village. The cause for the amputation was the actual death of the limb. Mr. S., who is a laboring man of industrious and temperate habits, some weeks since, while walking, was seized with a sudden pain in the leg, about half way from the knee to the ankle and immediately all sensation or feeling below the region of the pain ceased. The look and color of the skin, and to the touch, was that of a dead body, and all life or animation below, midway from the knee to the ankle, was entirely eradicated. The above physicians attended the sufferer and used all the skill and ingenuity known to the medical profession to restore circulation, but to no avail. The individual had previously enjoyed good health, and the cause for so sudden and singular a result could not be accounted for. Circumstances of polished or paralyzed limbs are a frequent occurrence, but that of the death of a limb, we understand, was never before known to the medical faculty. That the limb was actually dead is shown from the fact that decomposition had set in, and it was found necessary to amputate the limb to prevent mortification. The leg was taken off above the knee.—*Albany Argus.*

SPECIAL NOTICES

DAVIS' PAIN KILLER.
Brooklyn, Conn., June 15, 1884.

FRIEND DAVIS:—Although a stranger to you, I take the liberty of addressing a few lines to you for the purpose of saying a few words in favor of your invaluable medicine. I have used your Pain Killer for a number of years, and for bowel complaint and burns, and in fact for pains of all kinds, I think it pre-eminent. Before I became acquainted with your medicine, I had a violent attack of dysentery, which reduced me very low, but my friends thought I could not survive, but by the treatment of a Botanic Physician, the best remedy I then knew, I recovered. Since then, I have had several attacks, one very violent, about four years ago. I was attacked at three o'clock in the morning, and at sunrise, I was unable to get off my bed. I sent for a twenty-five cent bottle of your Pain Killer, which I commenced taking, according to directions, and at six o'clock in the evening my bowels were regular, and I was up and moving about, although somewhat weak. I would recommend to all similarly afflicted, to avail themselves of your invaluable medicine.

I am, sir, yours respectfully,
ELMER WILLIAMS.
The genuine Perry Davis' Pain Killer is now put up in patent bottles, with the words Davis' Vegetable Pain Killer blown in the glass; and with two steel engraved labels on each bottle—one an excellent likeness of Perry Davis, the original inventor of the medicine, the other a steel engraved note of hand—none others can be relied upon as genuine. Prices of bottles 12 1/2 cents, 25 cents, 50 cents, and \$1 respectively.
